Misa Form

Misa form is a Gdynia-based brand created by Mirosława Kelsz-Chołuj. It is known for modern small furniture items being a combination of current interior trends and three generations experience gained in a family manufacture.

It is a piece of history of solid Polish craftsmanship.
It is a well-thought-out answer to the needs and lifestyle of a contemporary consumer.
It is natural and refined, meticulously made furniture.

The Mission of the brand

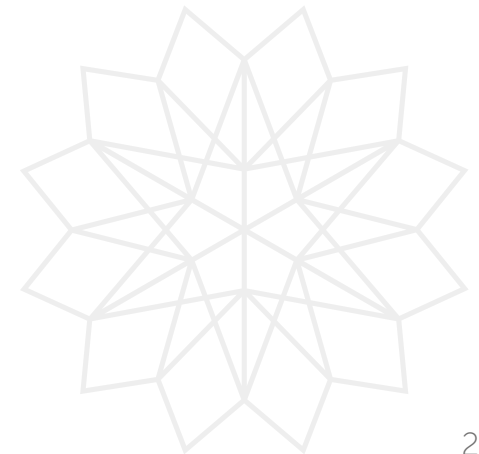

Misa Form was born out of its founder's urge to return to the roots of family tradition. It is an attempt to revive forgotten methods of working with wood, for example woodturning. Modern small furniture items by Misa Form are the response to the current tendencies to combine different living spaces at home into one area and to reduce the number of furniture pieces in favour of quality.

The mission of Misa Form is thus not just to introduce to the market yet another table. Instead, it aims at reviving the forgotten experience based on a feeling that this very object will serve us well for a long time or even be handed over from generation to generation.

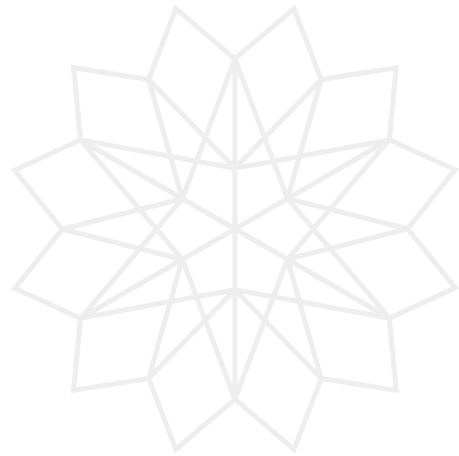

The next projects of Misa Form will refer even more to the Polish craftsmanship as they will constitute an opportunity to take up different forms of working with wood, other than woodturning.

Chess figures by Misa Form is a project consisting of a series of multi-functional wood turned tables, which move from the chess board straight to the interiors. They like to stop in the hallway and serve as somewhere to sit while putting your shoes on. Placed at the dining table they will break the monotony of chairs. And in the comfort zone they will play the role of a side table or a coffee table.

FOU

Material:
Solid oak wood, layered,
turned, oiled

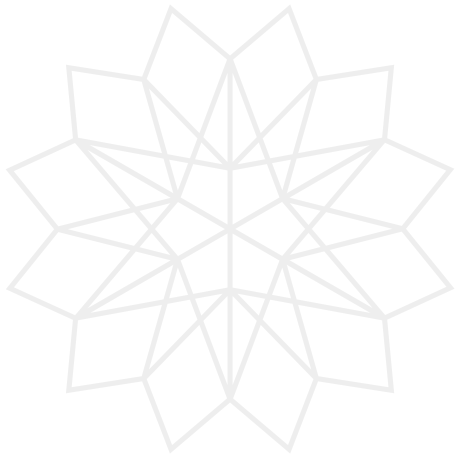

Color:
Natural oak

Weight:
~15kg

Size:
height - 43cm
diameter - 35cm
